

GOVERNMENT POLYTECHNIC FOR WOMEN
DEPARTMENT OF TECHNICAL EDUCATION

NOTIFICATION

Industry Institute Interaction Cell

The Industry Institute Partnership Cell was organized in the year 2007, as continuous interaction between academia and industry which is the need of the hour. It provides a platform for both the students as well as faculty members to be aware of industry expectations of skill sets required for students. This enables students to be aware of the lacunae in their skills and provides an opportunity to upgrade them. It also enables Faculty to be aware of industry expectations & train students to meet these expectations. Faculty members through FDPs are also provided an opportunity to constantly upgrade their knowledge. This will enhance the Teaching Learning Process and enable the Institution to produce quality students. Such interactions can thus be of mutual benefit to the institution as well as the industry.
