At the outset, I would like to start submitting my report with paying homage to our great leader, Father of the Nation Mahathma Gandhi on his 150<sup>th</sup> birth anniversary year, whose soul continues to guide and inspires our Kharma bhumi. **His principle the best way to find you is to lose you in the service of others is our guiding philosophy, which propels us towards a meaningful future.**

I believe that the purpose of education is to replace an empty mind with an open mind .The direction in which education starts a child will determine his future life. The whole object of education should be to develop the mind that works and, to free a child's potential by instilling in him a curiosity to learn so that he will continue to learn as long as he lives I hope we at this institute striving for the same.
